Scale: 1/2" = 1'-0"

NOTICE DUTY OF COOPERATION

FFD, LLC assumes no liability for anything constructed from these plans and drawings. Release of these drawings contemplates further cooperation among the owner, contractor and the designer. Design and construction are complex. Although the designer and his associates performed their services with due care and diligence, they do not guarantee perfection. Communication is imperfect and every contingency is not anticipated. Any ambiguity or discrepancy discovered by the use of these drawings must be reported immediately to the designer. Failure to notify the designer, compounds misunderstanding and increases construction costs. A failure to cooperate by a simple notice to the designer will release the designer from responsibility for all consequences. Changes made from the drawings without the consent of the designer are unauthorized and release the designer of responsibility for all consequences arising out of such changes. Only qualified Designer, Engineer, Architect or Contractor should attempt to modify any portion of this design. All dimensions on these drawings shall be verified in field. Written dimensions have precedence over scaled dimensions. The builder or the contractor is responsible for all dimensions and conditions on the job. The designer must be notified by submission of shop drawings for his approval before proceeding with fabrication. Reproduction of these drawings, in any form, without written permission of the Designer, is prohibited.

CODE COMPLIANCE
 I am a registered professional engineer, architect, or interior designer, and I am providing these drawings and specifications in accordance with the Pennsylvania Professional Code of Ethics and the Pennsylvania Professional Code of Practice. I am not providing these drawings and specifications for any other purpose. I am not responsible for any other drawings or specifications that may be used in connection with these drawings and specifications. I am not responsible for any other drawings or specifications that may be used in connection with these drawings and specifications. I am not responsible for any other drawings or specifications that may be used in connection with these drawings and specifications.
